

ModelInterface

```
graph BT; A[LinearDemandsConstantCosts] --> B[ModelInterface];
```

A UML diagram showing a class hierarchy. At the top is a box labeled 'ModelInterface' with a light gray fill. Below it is a box labeled 'LinearDemandsConstantCosts' with a white fill. A blue arrow points from the bottom of the 'LinearDemandsConstantCosts' box up to the bottom of the 'ModelInterface' box, indicating that 'LinearDemandsConstantCosts' implements 'ModelInterface'.
